First sentence. Second sentence. Third sentence. Fourth sentence.

#### 1 Introduction

In this week's reflection exercise, I will take a look at where people from GTA are most likely to register their marriage. I will be using R Core Team (2023) to simulate, test and analyse this data. I will download the data from Gelfand (2022).

#### 2 Data

Some of our data is of penguins (@Figure 1), from Horst, Hill, and Gorman (2020). Talk more about it.

#### 3 Discussion

#### 3.1 Why are people getting married in North York?

A majority of marriages were registered in North York.
